<b>SERVICE NAME:</b>	<b>1. Issuance of</b> <b>A. Permit to Purchase/Possess (New/ Extension)/Construction Permit / Radio Station License (New/Modification) for Radio Stations (Microwave, VSAT, Public Trunked, WLL, BWA*, WDN) of a Public Telecommunications Entity</b> <b>B. Issuance of Temporary Permit to Demonstrate and Propagate for a Public Telecommunications Entity</b>
----------------------	--

A **Permit to Purchase/Possess** is a written authority issued by the Commission to a Public Telecommunications Entity (PTE) authorizing the holder thereof to purchase/ acquire and/or possess/own a radio transceiver.

A **Construction Permit** is a written authority issued by the Commission to a Public Telecommunications Entity (PTE) authorizing the holder thereof to construct or install radio transceivers or radio station(s).

A **Radio Station License** is a written authority issued by the Commission to a Public Telecommunications Entity (PTE) authorizing the holder thereof to operate a radio station during the period specified in said instrument or authorization.

The **renewal** of a **Radio Station License** is required for the continuous operation of an existing radio station.

The **modification** of **Radio Station License** is required if there is change of equipment and/or additional Equipment, change of Location and/or technical parameters of the radio station(s) or change of licensee as indicated in the license.

A **Permit to Demonstrate and Propagate** is a written authority issued by the Commission to a Public Telecommunications Entity, on a temporary, non-exclusive and non- interference basis, providing the PTE the opportunity to select the most appropriate radio equipment, and for the purpose of determining the technical capability or performance of radio systems or equipment, feasibility or certain path links and radio networks.
